

Van's *Delivery* PHARMACY

COVID-19 Patient Update

As a Pharmacy, we are on the frontlines of the provision of health and welfare to our patients and, indirectly, their families and loved ones. We understand that it is imperative that we take all necessary precautions to ensure that the provision of medication to our patients is not disrupted.

We want to assure you that **we will remain open** and operating **during our normal business hours** to serve the needs of our patients.

Van's Delivery Pharmacy continues to monitor the health advisories issued by the CDC, the WHO, Missouri Department of Health and Senior Services and the Missouri Board of Pharmacy. Van's Delivery Pharmacy has taken additional precautionary measures in increasing disinfection of work areas and surfaces and wiping down surfaces such as tables and doorknobs on a more regular basis, providing additional sanitizer stations to staff, and advising staff of precautions to take if they experience symptoms of COVID-19.

Van's Delivery Pharmacy is committed to continuing to provide the highest level of service to our patients throughout these uncertain and trying times.

COVID-19 Resources

The **St. Louis Coronavirus 24-hour Hotline** is staffed by medical professionals for people seeking guidance on the new coronavirus.

- The phone number is: **877-435-8411**

More information can be found online at www.stlcorona.com

Anyone experiencing symptoms of a fever, cough or difficulty breathing and have reason to believe they have encountered a person infected with COVID-19 should immediately call the **St. Louis County Health Line at 314-615-2660.**

The St. Louis County Department of Public Health asks that our community continues to be aggressive with social distancing and community mitigation measures in order to reduce the spread of COVID-19.

- Practice social distancing
- Wash your hands often throughout the day with warm water and soap.
 - If soap and water are not available, use an alcohol-based hand gel.
- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
